COMMERCIAL PROPOSAL AND PARTNERSHIP APPROACH

Commercial Proposal

Zalahaláp PV Plant 63 MW_{dc} – FIX price contract – Pay-as-Produced physical offtake

Start date	End date	Estimated volume (MWh)	Indicative bid (EUR/MWh)
2028-01-01	2030-12-31	235,368	43.96
2028-01-01	2031-12-31	313,824	40.76

What's included?

- Balancing group management (Plant will be part of MET Group's balancing group)
- Balancing risk at MET Group
- Forecasting and schedule nomination to the market and TSO
- Physical offtake and commercialization
- Regulatory reporting
- Settlement and invoicing

Plant output is physically delivered into MET's balancing group. MET assumes forecasting, scheduling and market settlement responsibilities for the contracted energy volumes.

Why met as your solution provider

1 **Pan-European Flexibility Platform**
One of Hungary`s biggest balancing groups and balancing service providers, multiple control units, every asset type from CCGT, OCGT and CHP to solar, wind and BESS.

Europe wide BSP coverage with hundreds of MWs total assets managed in each HU, BG, ES, FR and growing.

2 **Integrated, one-stop shop**
MET offers end-to-end commercialization of renewable and flexible assets, combining route-to-market services, asset optimization, energy management and bespoke risk management solutions.

Supported by advanced automated trading capabilities and access to all major power market segments, MET unlocks additional value through real-time optimization and portfolio synergies.

3 **Investment grade credit rating**
Strong capitalization, diversified revenues and access to significant international credit facilities underpin MET's ability to support long-term optimization and market access solutions.

BRINGING NEW ENERGY TO EUROPE

COMMERCIAL PROPOSAL AND PARTNERSHIP APPROACH

Commercial Proposal

Zalahaláp PV Plant 63 MW_{dc} – INDEX price contract – Pay-as-Produced physical offtake

Service fee as % of HUPX DAM (X%)	5%
Cap on the service fee (maximum)	10 €/MWh
Floor on the service fee (minimum)	5.75 €/MWh
Note for service fee	In case of HUPX-Fee<=0 during given delivery periods, reference off-take volumes – that are basis of the settlement in this case – set to 0 MWh to avoid penalizing the Seller.
Ancillary Services – Compensation for downregulation*	10 €/MWh

*Compensation paid by the Buyer for the control of PV assets (blended rate from ancillary services and imbalance optimization). Excluding curtailment based on HUPX prices according to Note for service fee row.
